

Information Security Pass™

The 30-day Information Security Pass™ programme is delivered entirely online by Central Solutions, and ensures you:

- Gain a better awareness of information security risks and threats to the organisation
- Recognise ways to mitigate exposure to such security concerns
- Understand IT security compliance business requirements

Course Content

The course provides a good grounding in:

- Malware
- Social Engineering
- Safe Internet Usage
- Malicious Links
- Passwords
- Social Media
- Data Security in the Workplace
- Information Security Outside the Office
- Mobile Security

Key benefits:

- Bite-sized digestible content on key Information Security topics
- Employees receive a portable 'passport' that rewards them on an ongoing basis for demonstrating responsible information security behaviours
- Fully independently managed and delivered services

What does it cost ?:

This course is free to eligible participants who are owners, managers or employees of companies, sole traders or self employed or other private sector organisations or commercial semi-state companies operating in the Republic of Ireland.
